Investment Strategy	<p>The Scheme aims to generate long term capital appreciation by investing in a concentrated portfolio of equity & equity related instruments of up to 30 companies. The Scheme would adopt a mix of top-down and bottom-up approach of investing and will aim at being diversified across various industries and / or sectors and/ or market capitalization.</p> <p>The scheme would follow an active investment strategy and would invest in a maximum of 30 companies, using a mix of top down and bottom up approach. The investment team shall scan the market for opportunities and shall evaluate the individual opportunities on their merits. The Scheme may also seek participation in other equity and equity related securities to achieve optimal portfolio construction. The universe of stocks is carefully selected to include companies having a robust business models and enjoying sustainable competitive advantages as compared to their competitors.</p> <p>The Scheme may also invest a certain portion of its corpus in debt and money market securities. Investment in debt securities will be guided by credit quality, liquidity, interest rates and their outlook. For more details please read SID.</p>			
Risk Profile of the Scheme	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment.</p> <p>Scheme specific Risk Factors</p> <p>The scheme will be subjected to concentration risk as the fund is mandated to have a portfolio of 30 companies or less. This may result in the Portfolio NAV to be more volatile as compared to other categories. The scheme may also face a relatively higher liquidity risk owing to larger concentrations in their exposures in the event of any significant redemptions occurring in the scheme. The relatively higher concentration may lead to a higher level of volatility and higher market liquidity risk as compared to a diversified equity fund.</p> <p>Risks associated with investing in Equities and Equity related Securities</p> <p>Investments in equity and equity related securities involve a degree of risk and investors should not invest in equity schemes unless they afford to take the risk of losing their investment.</p> <p>Equity instruments by nature are volatile and prone to price fluctuations on a daily basis due to both micro and macro factors. Volatility in the capital markets, changes in policies of the Government, taxation laws or any other political and economic development may negatively affect the prices of the securities invested in by the Scheme. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of some of the investments. The Scheme may inter-alia also may be exposed to the risk arising from over exposure to few securities/issuers/sectors.</p>			

Risks associated with investing in debt and / or Money Market Securities/Units of Liquid/Money Market/ Debt Mutual Fund Schemes:

The NAV of the Scheme, to the extent invested in Debt and Money Market securities, will be affected by changes in the interest rates due to various factors such as government borrowing, inflation, economic performance etc. The NAV of the Scheme is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates. Investments in Fixed Income securities may inter-alia carry Re-investment Risk, Spread Risk, Credit/Default Risk, Liquidity Risk, Prepayment Risk, etc.

Risks associated with investments in Derivatives

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

Risk Associated investment in ADRs/ GDRs and Foreign Securities

Subject to necessary regulatory approvals and within the investment objectives of the Scheme, the Scheme may invest in overseas markets which carry risks related to fluctuations in the foreign exchange rates, the nature of the securities market of the country, repatriation of capital due to exchange controls and political circumstances. It is AMC's belief that investment in foreign securities offer new investment and portfolio diversification opportunities into multi-market and multicurrency products. However, such investments also entail additional risks. Such investment opportunities may be pursued by AMC provided they are considered appropriate in terms of the overall investment objectives of the Scheme. Since the Scheme may invest only partially in foreign securities, there may not be readily available and widely accepted benchmarks to measure performance of the Scheme.

Risks associated with investing in repo transactions in corporate bonds:

The market for the aforesaid product is illiquid. Hence, repo obligations cannot be easily sold to other parties. If a counterparty fails, the scheme would have to take recourse to the collateral provided. If a counterparty fails to repay and the value of the collateral falls beyond the haircut, then the Scheme would be exposed to a loss of interest or principal.

Further, if the Scheme needs to take recourse to the debt securities provided as collateral, and the issuer of the debt securities makes a default, the scheme may lose the whole, or substantial portion of the amount. This risk is somewhat mitigated by the fact that only bonds which have credit rating of AA and above can be accepted as collateral for repo transactions. (Long term rating) or A1+ (short term rating).

Risks associated with investing in Securities Segment and Tri-party Repo trade settlement

The mutual fund is exposed to the extent of its contribution to the default fund of CCIL at any given point in time i.e. in the event that the default waterfall is triggered and the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, the scheme may lose an amount equivalent to its contribution to the default fund.

Risk factors associated with investments in REITs and InvITs;

Investment in REITs and InvITs carry Liquidity Risk, Re-investment Risk, Price Risk, Interest Rate Risk, Credit Risk, Regulatory/Legal Risk etc.

Risks associated with transaction in Units through stock exchange(s):

In respect of transaction in Units of the Scheme through BSE and / or NSE (applicable to the facility to transact in the Units of the Scheme through the Stock Exchange mechanism provided by the AMC), allotment and redemption of Units on any Business Day will depend upon the order processing / settlement by BSE and / or NSE and their respective clearing corporations on which the Fund has no control.

Risks associated with Restrictions on Redemption:

The Trustee and the AMC may impose restrictions on redemptions when there are circumstances leading to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets. Accordingly, such restriction may affect the liquidity of the Scheme and there may be a delay in investors receiving part of their redemption proceeds.

Risks associated with Segregated portfolio:

The AMC / Trustee shall decide on creation of segregated portfolio of the Scheme in case of a credit event at issuer level i.e. downgrade in credit rating by a Credit Rating Agencies (CRA) or actual default (in case of unrated debt or money market instruments). Accordingly, Investor holding units of segregated portfolio may not able to liquidate their holding till the time recovery of money from the issuer. The Security comprises of segregated portfolio may not realise any value.

Further, Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

For details on risk factors and risk mitigation measures, please refer SID

Plans/Options

The Scheme will have two Plans i.e. Direct Plan and Regular Plan with a common portfolio and separate NAVs.

Direct Plan is only for investors who purchase /subscribe Units in the scheme directly with the Fund and is not available for investors who route their investments through a Distributor.

Both Direct and Regular Plan(s) offers two Options, viz., (i) Growth Option; and (ii) IDCW Option (with Payout of Income Distribution cum capital withdrawal option and Reinvestment of Income Distribution cum capital withdrawal option)

Under the Growth option, no IDCW will be declared. Under the IDCW option, IDCW may be declared by the Trustee, at its discretion, from time to time (subject to the availability of distributable surplus as calculated in accordance with the SEBI Regulations).

If the investor does not clearly specify the choice of option (Growth / IDCW) at the time of investing, it will be treated as a Growth option. If the investor does not clearly specify at the time of investing, the choice of option under IDCW, it will be treated as a Reinvestment of Income Distribution cum capital withdrawal option.

In case, the IDCW amount is less than Rs. 500/-, then it will be compulsorily reinvested in the existing plan of the scheme, invested by the investor.

The Trustee may decide to distribute by way of IDCW, the surplus by way of realised profit, IDCWs and interest, net of losses, expenses and taxes, if any, to Unit-holders in the IDCW option of the Scheme if such surplus is available and adequate for distribution in the opinion of the Trustee. The Trustee's decision with regard to availability and adequacy, rate, timing and frequency of distribution shall be final. The IDCW will be due to only those Unit-holders whose names appear in the register of Unit Holders in the IDCW option of the Scheme on the record date.

Default Plan

Investors subscribing under Direct Plan of the Scheme will have to indicate "Direct Plan" against the Scheme name in the application form. However, if distributor code is mentioned in application form, but "Direct Plan" is mentioned against the Scheme name, the distributor code will be ignored and the application will be processed under "Direct Plan". Further, where application is received for Regular Plan without Distributor code or "Direct" mentioned in the ARN Column, the application will be processed under Direct Plan.

The below table summarizes the procedures which would be adopted by the AMC for applicability of Direct Plan / Regular Plan, while processing application form /transaction request under different scenarios:

Sr. no.	AMFI Registration Number (ARN) Code mentioned in the application Form / transaction request	Plan as selected in the application form / transaction request	Transaction shall be processed and Units shall be allotted under
1	Not mentioned	Not mentioned	Direct Plan
2	Not mentioned	Direct	Direct Plan
3	Not mentioned	Regular	Direct Plan
4	Mentioned	Direct	Direct Plan
5	Direct	Not Mentioned	Direct Plan
6	Direct	Regular	Direct Plan
7	Mentioned	Regular	Regular Plan
8	Mentioned	Not Mentioned	Regular Plan

In cases of wrong incomplete ARN codes mentioned on the application form, the application shall be processed under Regular Plan. The AMC shall endeavour to contact the investor/distributor and obtain the correct ARN code within 30 calendar days of the receipt of the application form from the investor/distributor. In case, the correct code is not received within 30 calendar days, the AMC shall reprocess the transaction under Direct Plan from the date of application without any exit load. Further, in line with AMFI Best Practices Guidelines Circular no. 111/ 2023/ 2024 dated February 02, 2024, in case of invalid ARN code mentioned on the application form, the application will be processed under Direct Plan.

Invalid ARN has been defined to include ARN validity period expired, ARN cancelled /terminated, ARN suspended, ARN Holder deceased, Nomenclature change (as required pursuant to SEBI (Investment Advisers) Regulations, 2013) and not complied by the Mutual Fund Distributor ('MFD'), MFD is debarred by SEBI, ARN not present in AMFI ARN database, ARN not empanelled with AMC.
