Portfolio Rebalancing & Change in Investment Pattern

Subject to the SEBI (MF) Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute and that they can vary substantially depending upon the perception of the Investment Manager, the intention being at all times to seek to protect the interests of the Unit holders.

• Portfolio Rebalancing

Pursuant to Para 2.9 related to 'Timelines for Rebalancing of Portfolios of Mutual Fund Schemes' of the SEBI Master Circular, in the event where the asset allocation is falling outside the limits specified in the asset allocation table due to passive breaches (occurrence of instances not arising out of omission and commission of AMC), the Scheme will rebalance the portfolio within thirty (30) business days. However, if market conditions do not permit the Fund Manager to rebalance the portfolio of the Scheme within the stipulated period of thirty (30) business days, justification in writing including details of efforts taken to rebalance the portfolio for the same shall be provided to the Investment Management Committee. The Investment Management Committee shall then decide on the course of action and if they so desires can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period. Further, compliances relating to disclosures etc. shall be adhered in line with the said circular.

It may please be noted that the AMC shall adhere to all the SEBI guidelines regarding the rebalancing of the asset allocation as stipulated from time to time.

	<ul style="list-style-type: none"> • Change in Investment Pattern due to Short Term Defensive Consideration <p>Pursuant to Para 1.14.1.2.b related to 'Investment Pattern' of the SEBI Master Circular, the tentative portfolio break-up mentioned above with minimum and maximum asset allocation range can be altered due to market conditions for a short-term period on defensive considerations. In this event where the asset allocation falling outside the limits specified in the asset allocation table due to defensive considerations (active breaches), the Scheme will rebalance the portfolio within thirty (30) calendar days from the date of deviation.</p> <p>However, justification for the same shall be provided to the Investment Management Committee in writing. The Investment Management Committee shall then decide on the course of action.</p> <p>Liquidity Risk Management (LRM) Requirement</p> <p>As required under para 4.6.1 and para 4.6.2 of the SEBI Master Circular, and AMFI Best Practice guidelines on Prudential Norms for Liquidity Risk Management dated July 24, 2021, the Scheme shall hold at least 10% of its net assets in liquid assets ('liquid assets' shall include Cash, Government Securities, T-bills and Repo on Government Securities) or as liquid assets calculated on monthly basis as per prudential norms for Liquidity Risk Management, whichever is higher. Thus, the asset allocation limits shown above will be calculated after excluding liquid assets allocation.</p>
Investment Strategy	<p>The fund management team will endeavor to maintain a consistent performance in the scheme by maintaining a balance between safety, liquidity and profitability aspects of various investments. The fund manager will try to achieve an optimal risk return balance for management of the fixed income portfolios. The investments in debt instruments carry various risks like interest rate risk, liquidity risk, default risk, purchasing power risk etc. While they cannot be done away with, they can be minimized by diversification and effective use of hedging techniques.</p> <p>The fund management team will take an active view of the interest rate movement by keeping a close watch on various parameters of the Indian economy, as well as developments in global markets.</p> <p>Investment views/decisions will be taken on the basis of the following parameters:</p> <ol style="list-style-type: none"> Prevailing interest rate scenario Quality of the security/instrument (including the financial health of the issuer) Maturity profile of the instrument Liquidity of the security Growth prospects of the company/industry Any other factors in the opinion of the fund management team
Risk Profile of the Scheme	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:</p> <ul style="list-style-type: none"> • Risks Associated with Investing in Debt and/or Money Market Securities: <p>Interest Rate Risk: As with all debt and money market instruments, changes in interest rates will affect the scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and decrease as interest rates rise</p> <p>Liquidity or Marketability Risk: This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer.</p> <p>Credit Risk: Credit risk or default risk refers to the risk which may arise due to default on the part of the issuer of the fixed income security (i.e. will be unable to make timely principal and interest payments on the security).</p> <p>Reinvestment Risk: This risk refers to the interest rate levels at which cash flows received from the securities in the scheme or from maturities in the scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk refers to the fall in the rate for reinvestment of interim cash flows.</p> <ul style="list-style-type: none"> • Risk Associated with Investments in Foreign Securities. • Risks Factors Associated with Investments in Repo Transactions in Corporate Bonds. • Risks Associated with Investing in Tri-party Repo Trade Settlement. • Risks Associated with Transaction in Units through Stock Exchange Mechanism. <p>Please read the SID carefully for details on risk factors before investment. The scheme portfolio shall also have market risk, liquidity or marketability risk, credit risk etc. The Fund, by utilizing a holistic risk management strategy, will endeavour to manage risks associated with investing in debt markets. The risk control process involves identifying & measuring the risk through various risk measurement tools.</p> <p>For details on risk factors and risk mitigation measures, please refer to the SID.</p>

These Rules have come into force with effect from June 1, 2017. These Rules, inter alia, make it mandatory for investors to submit Aadhaar number issued by the Unique Identification Authority of India (UIDAI) in respect of their investments. However, the date for mandatory submission of Aadhaar in respect for accounts/folios of a new investor has been deferred by an order passed by Hon'ble Supreme Court. Application Form not accompanied by KYC Application Form or letter/acknowledgment issued by KRA may be rejected by the Fund. The KYC compliance status will be validated with the records of the KRA.
