The scheme shall make investment in derivatives as permitted under the SEBI (MF) regulations. Exposure to equity derivatives of the index or its constituent stocks may be required in certain situations wherein equity shares are unavailable, insufficient or for rebalancing in case of corporate actions within 7 days (or as specified by SEBI from time to time). Investment in derivatives will be upto 20% of the net assets.

Subject to the Regulations and the applicable guidelines, the Scheme may engage in Stock Lending activities. The Scheme will participate in stock lending not more than 20% of total Net Assets of the Scheme and would limit its exposure with regard to stock lending for a single intermediary to the extent of 5% of the total net assets at the time of lending.

Change in Investment Pattern

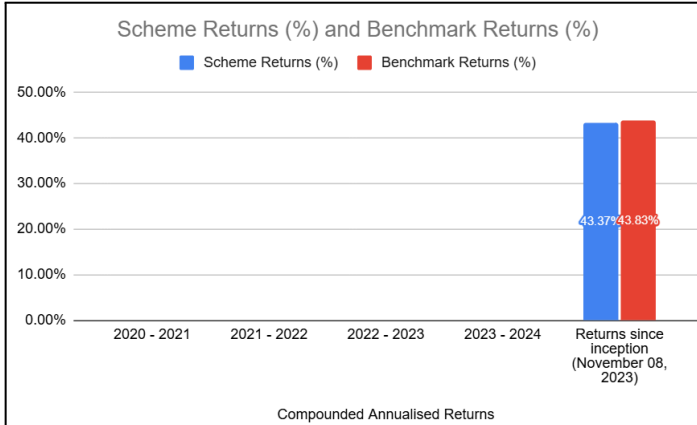

Change in Asset Allocation:

The Scheme, in general, will hold all the securities that comprise the underlying Index in the same proportion as the Index. Expectation is that, over a period of time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low. The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. If the investments fall outside the asset allocation range given above due to change in constituents of the index as a result of periodic review, the portfolio of the Scheme shall be rebalanced within 7 calendar days. The proportions mentioned in the asset allocation can vary substantially depending upon the perception of the fund manager; the intention being at all times to seek to protect the interests of the Unit holders. Such changes

	<p>in the investment pattern will be for short term and for defensive considerations only and will be rebalanced within 7 calendar days. As per SEBI Circular No. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, in case of deviation (passive), the portfolio would be rebalanced within 7 calendar days from the date of deviation. The funds raised under the Scheme shall be invested only in securities as permitted by SEBI (MF) Regulations. Provided further and subject to the above, any change in the asset allocation affecting the investment profile of the Scheme shall be effected only in accordance with the provisions of sub regulation (15A) of Regulation 18 of the SEBI (MF) Regulations.</p> <p>Portfolio Rebalancing:</p> <p>Pursuant to SEBI circular no. SEBI/HO/IMD/IMD-II DOF3/P/CIR/2022/39 dated March 30, 2022; SEBI/HO/IMD/IMD-II DOF3/P/CIR/2022/39 dated May 23, 2022 and circulars issued thereunder, in case of change in constituents of the index due to periodic review, the portfolio of the scheme will be rebalanced within 7 calendar days.</p> <p>Short term defensive consideration:</p> <p>Subject to SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/2021/024 dated March 04, 2021 and circulars issued thereunder, the asset allocation pattern indicated above may change for a short term period on defensive considerations, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary depending upon the perception of the Fund Manager, the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be rebalanced within 7 Calendar days from the date of deviation and further action may be taken as specified under SEBI Circulars/ AMFI guidelines issued from time to time.</p>
Investment Strategy	<p>The Scheme is a passively managed index fund, which endeavors to invest in stocks in proportion to the weightage of the stocks in the Nifty LargeMidcap 250 Index. The investment strategy would revolve around reducing the tracking error to the least possible extent through regular rebalancing of the portfolio, taking into account the change in weights of stocks in the Index as well as the incremental collections/redemptions in the Scheme. Such rebalancing shall be done in accordance with timelines prescribed by SEBI from time to time.</p> <p>A part of the funds may be invested in debt and money market instruments, to meet the liquidity requirements.</p> <p>The Scheme may also invest in the schemes of Mutual Funds in terms of the prevailing SEBI (MF) Regulations.</p>

	<p>EQUITY INVESTMENT STRATEGY:</p> <p>The investment objective of the scheme is to achieve a return equivalent to Nifty LargeMidcap 250 Index TRI by investing in stocks of companies comprising Nifty LargeMidcap 250 Index. The Scheme endeavors to invest in stocks in proportion to the weightages of these stocks in the Nifty LargeMidcap 250 Index.</p> <p>The fund will, in general, invest a significant part of its corpus in equities; the surplus amount of the fund, not exceeding 5% shall be invested in Cash/Tri-Party Repo, Repo in corporate debt securities & Money Market instruments.</p> <p>The performance of the Scheme may not be commensurate with the performance of the respective benchmark of the Schemes on any given day or over any given period. Such variations are commonly referred to as the tracking error. The Scheme intends to maintain a low tracking error by effectively replicating the portfolio in line with the index.</p> <p>However, there is no assurance that all such buying and selling activities would necessarily result in benefit for the Fund.</p> <p>DEBT AND MONEY MARKET INVESTMENT STRATEGY:</p> <p>A small portion of the net assets will be held as cash or will be invested in debt and money market instruments permitted by SEBI/RBI including TREPS or in alternative investment for the TREPS as may be provided by the RBI, to meet the liquidity requirements under the Scheme.</p> <p>PORTFOLIO TURNOVER:</p> <p>The Scheme will endeavor to keep the portfolio turnover at a minimum. However, the portfolio turnover ratio may vary as the Scheme may change the portfolio according to Asset Allocation to align itself with the objectives of the Scheme and in accordance with the composition of Nifty LargeMidcap 250 Index. The effect of higher portfolio turnover could be higher brokerage and transaction costs.</p>
