Credit quality analysed on the assumption that instruments will be held to maturity. The credit evaluation is guided by the credit policy of the AMC in which the external credit rating and the size of the company play an integral role.

List of sectors where scheme will not be investing

The scheme shall not invest in debt instruments issued by companies in the real estate, gems & jewellery, micro finance institutions and airlines. Depending up on the changes in the investment environment, the AMC may consider other sectors / companies for applying such restrictions from time to time. For the purpose of identifying sector, AMFI sector definitions shall be referred to.

Type of instruments in which the scheme propose to invest

As stated above.

Intended portfolio allocation

The floors and ceilings within a range of 5% of the intended allocation (%) against each sub asset class/credit rating shall be as follows.

Credit Rating / Instruments	A1	AAA	AA	A	Not applicable
CDs	95-100%	0	0	0	0
CPs	0	0	0	0	0
NCDs	0	0	0	0	0
CBLO/ units of liquid funds / Treasury Bills	0	0	0	0	0-5%

Notes:

- Securities with rating A and AA shall include A+ and A- & AA+ and AA- respectively. Similarly, securities with A1 shall include A1+.
- There can be positive variation in the range in investment towards higher credit rating in the same instrument.
- In case of non availability of and taking into account the risk-reward analysis of CPs, NCDs; the scheme may invest in CBLOs and CDs having highest credit rating (i.e. A1+ or equivalent) or government securities or treasury bills. Such deviation may continue, if suitable NCDs/CPs of desired credit quality are not available.
- At the time of building up the portfolio post NFO and towards the maturity of the scheme, there may be a higher allocation to cash and cash equivalent (including units of liquid funds and / or Short Term Deposits).
- All investment shall be made based on the rating prevalent at the time of investment. However, in case of an instrument having dual ratings, the most conservative publicly available rating would be considered.
- In the event of any deviations from the floor and ceiling of credit ratings specified for any instrument, other than by reason of downgrade or default, the AMC will seek to rebalance the portfolio within 30 days from the date of occurrence of deviation.
- Further, the above allocation may vary during the tenure of the Plan. Some of these instances are: (i) coupon inflow; (ii) the instrument is called or bought back by the issuer (iii) in anticipation of any adverse credit event (iv) cash flow/cash balance of less than Rs 5 Cr e.t.c. In case of such deviations, the Plans may invest in Bank CDs (A1+ or equivalents) / CBLOs/ Reverse Repos/G-sec/ T-Bills / Liquid schemes. Such deviation may continue till maturity, if suitable instruments of desired credit quality are not available. In case where cash is generated in the above instances and is deployed in short term deposits, such deployment will only be for temporary parking in line with SEBI regulations.
- There will not be any variation between the intended portfolio allocation and the final portfolio allocation except as stated in points 2, 3, 4, 6 & 7 above.

Risk Profile of the Scheme

Mutual Fund units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific risk factors are summarized below:

Scheme Specific Risk Factors:

- 1) **Market Risk:** All mutual funds and securities investments are subject to market risk and there can be no assurance / guarantee that the scheme's objectives will be achieved. The securities that the scheme invests in would be exposed to price changes on a day-to-day basis. These price changes may occur due to instrument-specific factors as well as general macroeconomic conditions. Markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. The scheme may be subject to price volatility due to factors such as interest sensitivity, market perception, and creditworthiness of issuer and market liquidity. Different parts of the market can react differently to these developments. The value of an individual security or particular type of security can be more volatile than the market as a whole and can perform differently from the value of the market as a whole.
 2. **Risks associated with investing in fixed income securities:**
 - a) **Credit and Counterparty risk:** Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security or honor its contractual obligations). Counterparty risk refers to the counterparty's inability to honor its commitments (payment, delivery, repayment, etc.) and to risk of default. This risk relates to the quality of the counterparty on which the scheme has exposures. Losses can occur in particular for the settlement/delivery of financial instruments or the conclusion of financial derivatives contracts.
 - b) **Liquidity Risk:** The liquidity of the scheme's investment is inherently restricted by trading volumes in the securities in which the scheme invests. A lower level of liquidity affecting an individual security or derivative or an entire market at the same time, may have an adverse bearing on the value of the scheme's assets. More importantly, this may affect the scheme's ability to sell particular securities and derivatives quickly enough to minimise impact cost, as and when necessary to meet requirements of liquidity or to sell securities in response to triggers such as a specific economic/corporate event. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of a few or all of the investments and may affect the liquidity of the investments of the scheme. The scheme may be unable to implement purchase or sale decisions when the markets turn illiquid, missing some investment opportunities or limiting ability to face redemptions. The lack of liquidity could also lead to the risk that the sale price of a security could be substantially lower than the fair value of the security.
- Treatment and disposal of illiquid securities/NPAs at the time of maturity/ closure of the scheme:** Such securities will be valued in good faith in accordance with the Valuation Policy. Further SEBI regulations / provisions (vide SEBI Circular - MFD/CIR/05/432/2002 dated June 20, 2002) shall apply for such securities. Accordingly any amount realized by the mutual fund after the winding up of the schemes from such NPAs and illiquid securities, if substantial and realized within two years shall be distributed back to the investors. . In case the amount is not substantial or it is realized after two years, it may be transferred to the Investor Education Fund maintained as specified in SEBI circular MFD/CIR/9/120/2000 dated November 24, 2000. The decision as to the determination of substantial amount shall be taken by the trustees of mutual fund after considering the relevant factors.
- c) **Interest Rate Risk & Reinvestment Risk:** The value of an investment may be affected by interest rate fluctuations. Interest rates may be influenced by several elements or events, such as monetary policy, the discount rate, inflation, etc. The value of debt and fixed income securities held by the scheme generally will vary inversely with the changes in prevailing interest rates. Further, securities of any issuer that has higher duration could be more risky in terms of price movements relative to those with lower duration. The investments made by the scheme are subject to reinvestment risk. This risk refers to the interest rate levels at which cash flows received from the securities in the scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed. There have been times in the past, when settlements have been unable to keep pace with the volume of securities transactions, making it difficult to conduct further transactions. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme are not invested and no return is earned thereon.

the scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed. There have been times in the past, when settlements have been unable to keep pace with the volume of securities transactions, making it difficult to conduct further transactions. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme are not invested and no return is earned thereon.

- d) **Concentration Risk:** The scheme may pursue only a limited degree of diversification. It may invest a greater proportion of assets in the securities of very few issuers (within the limits permitted by regulation) or be concentrated on a few market sectors. This could have implications for the performance of the scheme. The scheme may be more sensitive to economic, business, political or other changes and this may lead to sizeable fluctuation in the Net Asset Value of the scheme.

3. Risk associated with derivatives:

The scheme may use various derivative instruments and techniques, permitted within SEBI Regulations from time to time only for portfolio balancing and hedging purpose, which may increase the volatility of scheme's performance. Usage of derivatives will expose the Fund to certain risks inherent to such derivatives.

Derivative products are specialized instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will always be able to execute such strategies profitably.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

4) Risks associated with investing in liquid funds:

To the extent of the investments in liquid mutual funds, the risks associated with investing in liquid funds like market risk, credit & default risk, liquidity risk, redemption risk including the possible loss of principal; etc will exist.

5. Other Risks:

1. **Risk associated with inflation:** Over time, yields of short-term investments may not keep pace with inflation, leading to a reduction in an investment's purchasing power.
2. **Legal Risk:** The scheme may be affected by the actions of government and regulatory bodies. Legislation could be imposed retrospectively or may be issued in the form of internal regulations which the public may not be aware of. Legislation (including legislation relating to tax) or regulation may be introduced which inhibits the scheme from pursuing their strategies or which renders an existing strategy less profitable than anticipated. Such actions may take any form, for example nationalization of any institution or restrictions on investment strategies in any given market sector or changing requirements and imposed without prior warning by any regulator.
3. **Risk associated with listing of units:** Listing of the units of the scheme does not necessarily guarantee their liquidity and there can be no assurance that an active secondary market for the units will develop or be maintained. Consequently, the scheme may quote below its face value / NAV.
4. **Taxation Risk:** The value of an investment may be affected by the application of tax laws, including withholding tax, or changes in government or economic or monetary policy from time to time. As such, no guarantee can be given that the financial objectives will actually be achieved. The tax information described in this Scheme Information Document is as available under the prevailing taxation laws and could be changed at any moment by regulation. Further, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment in the scheme will endure indefinitely.
5. **Operational Risk:** Operational risk addresses the risk of trading and back office or administration issues that may result in a loss to the Fund. This could be the result of oversight, ineffective securities processing procedures, computer systems problems or human error.

	<p>6. Valuation Risk: This risk relates to the fact that markets, in specific situations and due to lack of volumes of transactions, do not enable an accurate assessment of the fair value of invested assets. In such cases, valuation risk represents the possibility that, when a financial instrument matures or is sold in the market, the amount received is less than anticipated, incurring a loss to the portfolio and therefore impacting negatively the NAV of the scheme.</p> <p>Risk Control Measures:</p> <p>Since investing requires disciplined risk management, the AMC would endeavour to incorporate adequate safeguards for controlling risks in the portfolio construction process. A credit evaluation of each investment opportunity will be undertaken to manage credit risk. The AMC will utilise ratings of recognised rating agencies as an input in the decision making process. The fund manager shall follow the asset allocation pattern in SID under normal circumstances and excess cash (if any) generated by way of coupon receipts etc. may be invested in the collateralised borrowing & lending obligations (CBLO) / repo market, units of liquid funds. There can however be no guarantee against liquidity issues within the scheme.</p> <p>The AMC may also implement certain internal control procedures / risk & exposure limits etc. for controlling risks which may be varied from time to time.</p> <p>The scheme may utilise derivative instruments for hedging & portfolio balancing purposes. All Interest Rate Swaps will be undertaken with approved counter parties under pre approved International Swaps and Derivatives Association (ISDA) agreements. The scheme may also use various derivatives and hedging products from time to time, as would be available and permitted by SEBI/RBI for the purpose of hedging and portfolio rebalancing.</p> <p>The above risk control measures shall be implemented by the AMC on best effort basis however there can be no guarantee that such measures can completely mitigate the risks involved in scheme.</p>
Options	<p>The Scheme offers following two plans:</p> <ul style="list-style-type: none"> • BNP Paribas Fixed Term Fund - Series 29 A • BNP Paribas Fixed Term Fund - Series 29 A- Direct Plan <p>Each plan has the following options:</p> <ul style="list-style-type: none"> • Growth Option • Dividend Option (Calendar Quarterly, Yearly and Dividend on Maturity Option) <p>Further, under dividend option dividend on maturity shall be considered as default dividend option.</p> <p>The Dividend Option offers only Dividend Payout Facility. IMPORTANT INFORMATION / INSTRUCTIONS FOR ASBA INVESTORS

Background : In its continuing endeavour to make the existing New Fund Offer process more efficient SEBI introduced a supplementary process of applying in New Fund Offer, viz: the "Applications Supported by Blocked Amount (ASBA)" process. Accordingly, Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 have been amended for ASBA process. The salient features of circular no. SEBI/CFD/DIL/ASBA/1/2009/30/12 dated December 30, 2009 available on SEBI website for "Additional mode of payment through Applications Supported by Blocked Amount (hereinafter referred to as "ASBA") are mentioned below for understanding the ASBA process:

- 1. Meaning of ASBA:** ASBA is an application for subscribing to a New Fund Offer (NFO), containing an authorisation to block the application money in a bank account.
- 2. Self Certified Syndicate Bank (SCSB):** SCSB is a banker to an issue registered with the SEBI which offers the facility of applying through the ASBA process. The list of SCSBs is displayed by SEBI on its website at www.sebi.gov.in. ASBAs can be accepted only by SCSBs, whose names appear in the list of SCSBs displayed on SEBI's website. Investors maintaining their accounts in any of these Banks may approach one of the designated branches of these SCSBs for availing this facility. Further it may be noted that from time to time new banks register themselves as SCSBs who become eligible to provide these services and also the existing SCSBs designate additional branches that also provide this facility. An updated list of all the registered SCSBs, their controlling branches, contact details and details of their contact persons, a list of their designated branches which are providing such services is available on the website of SEBI at the address <http://www.sebi.gov.in>. Further these details are also available on the websites of the Stock Exchanges at <http://www.bseindia.com> and <http://www.nseindia.com>. Alternatively, investors may also contact the AMC, RTA for information about the SCSBs or the ASBA process. These SCSBs are deemed to have entered into an agreement with the Issuer and shall be required to offer the ASBA facility to all its account holders for all issues to which ASBA process is applicable. A SCSB shall identify its Designated Branches (DBs) at which an ASBA Applicant shall submit ASBA and shall also identify the Controlling Branch (CB), which shall act as a coordinating branch for the Registrar to the Issue, Stock Exchanges and Merchant Bankers. The SCSB, its DBs and CB shall continue to act as such, for all issues to which ASBA process is applicable. The SCSB may identify new DBs for the purpose of ASBA process and intimate details of the same to SEBI, after which SEBI will add the DB to the list of SCSBs maintained by it. The SCSB shall communicate the following details to Stock Exchanges for making it available on their respective websites. These details shall also be made available by the SCSB on its website: (i) Name and address of the SCSB (ii) Addresses of DBs and CB and other details such as telephone number, fax number and email ids. (iii) Name and contact details of a nodal officer at a senior level from the CB.
- 3. Eligibility of Investors:** An Investor shall be eligible to apply through ASBA process, if he/she: (i) is eligible under the section "Who can invest" of the SID, (ii) is applying through blocking of funds in a bank account with the SCSB; Such investors are hereinafter referred as "ASBA Investors".
- 4. ASBA Facility in Brief:** Investor shall submit his / her Application through an ASBA Application Form, to the SCSB with whom the bank account of the ASBA Investor or bank account utilised by the ASBA Investor ("ASBA

Account") is maintained. The SCSB shall block an amount equal to the NFO application Amount in the bank account specified in the ASBA Application Form on the basis of an authorisation to this effect given by the account holder at the time of submitting the Application. The Application Amount shall remain blocked in the aforesaid ASBA Account until the Allotment in the New Fund Offer and consequent transfer of the Application Amount against the allocated Units to the Issuer's account designated for this purpose, or until withdrawal/failure of the Offer or until withdrawal / rejection of the ASBA Application, as the case may be. The ASBA data shall thereafter be uploaded by the SCSB in the electronic system of the Stock Exchanges. When the Allotment is finalised, the RTA to the NFO shall send an appropriate request to the Controlling Branch of the SCSB for unblocking the relevant bank accounts and for transferring the amount allocable to the successful ASBA Applicants to the AMC account designated for this purpose. In case of withdrawal/Rejection of the Offer, the RTA to the Offer shall notify the SCSBs to unblock the blocked amount of the ASBA Applicants within one day from the day of receipt of such notification.

5. Other Information for ASBA Investors:

1. SCSB shall not accept any ASBA after the last day of the NFO period.
