Investment Strategy

As per investment objective, the Scheme will endeavour to achieve long term capital appreciation by investing in opportunities presented by special situations. To achieve a diversification in the Scheme will invest upto 20% of its net assets in other companies. The Scheme will follow a bottom-up approach to stock-picking and choose companies which are expected to get benefitted from the special situations such as corporate restructuring (including mergers & acquisitions etc.), government policy and/or regulatory changes, technology led disruption and innovation, new trends, new & emerging sectors, companies/sectors going through temporary unique challenges and other similar instances.

The details of the opportunities presented by special situations are as mentioned below-

Corporate restructuring: Corporate restructuring involves significant changes to a Company's operations, capital structure, or organizational setup etc. This can include changes into management, business lines, or financial arrangements aimed at improving efficiency or addressing financial challenges.

Further, the corporate restructuring shall also include below events which may create opportunities for special situations:

- Mergers and Acquisitions (M&A): Mergers occur when two companies combine to form a new entity, while acquisitions involve one company purchasing another. These actions can be friendly or hostile and often result in significant changes to the companies involved.
- Divestitures: Divestitures involve a company selling off a portion of its assets, subsidiaries, or divisions. This can be done to streamline operations, raise capital, or refocus the company's strategic direction.
- Spin-offs: A spin-off occurs when a company separates a portion of its business into a new independent entity. This can allow both entities to focus on their core operations and unlock its value for shareholders.
- Split-off: A Split-off is a specific type of corporate action in which a parent company separates a distinct portion of its business and offers shares of that portion to its existing shareholders. Unlike a spin-off, where shares of the new entity are distributed to shareholders, in a split-off, shareholders have the

- option to exchange their shares of the parent company for shares of the new entity at a predetermined exchange ratio.
- Carve-out: A Carve-out is a type of corporate action where a company separates a distinct portion of its business and operates it as a separate entity. This separated portion is typically a subsidiary or division that has its own unique operations, financials, and management team.
- Stock Splits: In a Stock Splits, a company increases the number of outstanding shares while proportionally reducing the price per share. This does not change the market capitalization of the company but can make shares more accessible to investors.
- Stock Buybacks: Stock Buybacks are also known as share repurchases wherein a Company buys back its own shares from the market. This can boost earnings per share and shareholder value by reducing the number of outstanding shares.
- Rights Offerings: In a rights offering, existing shareholders are given an opportunity to purchase additional shares of stock at a discounted price. This allows the Company to raise its capital while giving existing shareholders a chance to maintain their proportional ownership.

Government policy and/or regulatory changes:

• Government policy and Regulatory changes shift profoundly impact companies and sectors, shaping operational requirements and market dynamics. These changes encompass areas like taxation, environmental standards, and industry regulations, compelling businesses to adapt their strategies and operations accordingly.

Technology and innovation led disruption.

 Companies and sectors experiencing technology and innovation-led disruption are compelled to adapt swiftly to evolving market landscapes and embrace emerging technologies to maintain competitiveness.

New trends, new & emerging sectors

• Companies affected by new trends and emerging sectors must anticipate market shifts, adapt their strategies, and capitalize on opportunities presented by innovative technologies and changing consumer preferences to maintain competitiveness and foster sustainable growth.

Company/sector going through temporary unique challenges and other similar instances such as:

- Company/sector affected by geopolitical issues: Companies and sectors navigating geopolitical issues must contend with heightened uncertainty and geopolitical risks, necessitating strategic agility and diplomatic engagement to safeguard operations and mitigate potential disruptions to global markets.
- Company/sector affected by natural calamities. Companies and sectors affected by natural calamities
 confront formidable challenges, demanding swift response measures and resilience strategies to
 mitigate operational disruptions and ensure business continuity amidst unpredictable environmental
 events.
- Companies/sectors facing temporary unique challenges: Companies and sectors facing temporary unique challenges such as strikes, litigation, product recalls, cybersecurity threats, supply chain disruptions, talent acquisition and retention, regulatory compliance complexity, reputation management challenges, environmental sustainability pressures or any other such instances.

At WhiteOak Capital AMC, our investment strategy is to invest in businesses based on stock selection and to avoid focusing on macro events. We believe in investing in good businesses at attractive valuations. These are the two critical pillars of our investment philosophy – business and valuation. A good business is one that is well managed, scalable, and generates superior returns on incremental capital. Valuation is attractive when the current market price is at a substantial discount to intrinsic value.

Key attributes we look for in a Business	Key factors we evaluate	
a) Superior returns on incremental capital	Industry competitive intensity Sustainable competitive advantage	
b) Scalable long-term opportunity	Industry potential versus current size Expanding market share and scope	

c) Strong execution and governance Drive to create long term value Interests aligned with minority shareholders

OpcoFinco Valuation Framework

We use a proprietary valuation approach that has been trademarked as OpcoFinco. As shown in the extract below, under the OpcoFinco framework, a company is bifurcated into an Opco (capital-light operating company) and Finco (financing company that owns all capital investments). By deducting the invested capital from the publicly available enterprise valuation, we arrive at the value ascribed by the market to the Opco. The OpcoFinco Free Cash Flow (FCF) multiple of the business is then obtained by dividing the value of Opco with the present value of excess FCF generated.

OpcoFinco Framework

Abbreviations: PPE - Plant Property & Equipment, EROIC - Excess Return on Invested Capital, V(ABC FinCo) - Value of ABC FinCo, V(ABC OpCo) - Value of ABC OpCo, PV - Present Value Excess Return on Invested Capital - Return earned after subtracting the cost of capital.

As the OpcoFinco Framework is based on analysis of cash flows, it avoids several distortions that can potentially emerge while using accounting multiples. Depending on the suitability the traditional valuation approaches might be used for valuation.

The scheme may invest part of its portfolio in debt and money market instruments subject to permissible limits laid under SEBI (MF) Regulations and will be guided by credit quality, liquidity, interest rates outlook. The scheme may also have an exposure to derivative instruments for the purpose of hedging, portfolio balancing and optimising returns.

Though every endeavour will be made to achieve the objective of the Scheme, the AMC/ Sponsors/Trustee do not guarantee that the investment objective of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme.

- Q1. How would the Flex SIP instalment be calculated?
- A1. Calculation of Flex SIP instalment amount for instance on the date of the fourth instalment i.e. April 15, 2022. Total units allotted up to the date of previous instalment i.e. March 15, 2022 is assumed as 685.50. The NAV of the Scheme on April 13, 2022 (T-2) is assumed as Rs. 18/- per unit. Hence the market value of the investment in the Scheme on April 13, 2022 is Rs. 12,339 [685.50 X 18]. The instalment amount will be calculated as follows:

Fixed amount specified at the time of enrolment	:	Rs. 5,000/-		
	or			
As determined by the formula	:	{(5,000 x 4) - 12,339.00}= Rs. 7661.00		
whichever is higher				

Hence, the instalment amount on April 15, 2022 will be Rs. 7,661/-

Q2. How would maximum Flex SIP instalment be calculated?

Calculation of Flex SIP instalment amount for instance on the date of the 7th instalment i.e. July 15, 2022 (T):

Total units allotted up to the date of previous instalment i.e., June 15, 2022 is assumed as 1,558.675. NAV of the Scheme on July 13, 2022 (T-2) is assumed as Rs. 14/- per unit. Hence, the market value of the investment as on July 13, 2022 is Rs. 21,821 [1558.675 X 14].

The instalment amount will be calculated as follows:

Fixed amount specified at the time of enrolment	:	Rs. 5,000/-		
	or			
As determined by the formula	:	{(5,000 x 7) - 21,821.00}= Rs. 13,179.00		
whichever is higher, subject to 2 times the initial installment amount				

Hence, the instalment amount on July 15, 2022 will be Rs. 10,000/-

- Q3. How would the Flex SIP instalment be calculated vis-à-vis total enrolment amount?
 - In the above illustration, the total enrolment amount for Flex SIP is Rs 1,80,000 (5000 X 36 months). If the total amount invested in Flex SIP till the 34th month is Rs 1,77,000, then the 35th installment will be Rs. 3000 (Rs. 1.80.000 - Rs. 1.77.000) and the Flex SIP will cease
- An investor has an option to choose from 5 Flex SIP tenures viz. 3 years, 5 years, 10 years, 15 years and 20 years. If a tenure is not chosen, 5 years shall be the default Flex SIP tenure. The facility offers Monthly Flex Systematic Investment Plan (MFLEX) frequencies.
- The minimum amount per instalment shall be:
 - MFLEX: Rs. 500/- and in multiples of Rs. 100/- thereafter
- Investors can choose any preferred date of the month as SIP debit date (10th is the default date). In case the chosen date falls on a non-Business Day or on a date which is not available in a particular month, the SIP will be processed on the immediate next Business Day. If an investor chooses more than one date for SIP, separate SIPs shall be registered for each such date as per the frequency selected by the investor. Flex SIP shall be processed only through NACH mode.
- Exit Load, if any, prevailing on the date of Flex SIP enrolment shall govern the investments during the tenure.
- In the following circumstances, the Flex SIP facility may cease and SIP may be processed for the fixed instalment amount specified by the unitholder at the time of enrolment:
 - (a) If there is a reversal of any SIP instalment due to insufficient balance or technical reasons; or (b) If there is redemption/ switch-out of any units allotted under Flex SIP. (Units under a Scheme are redeemed on First In First Out (FIFO) basis, irrespective of the mode of allotment)
- Unitholders can discontinue the facility by giving 10 days written notice to any of the Fund's. Investor Service Centres (ISCs). An investor can place a request for cancellation for any one SIP debit date, in case multiple debit dates are chosen.
- 18. The SIP of the scheme will get auto terminated, after three consecutive failures
- 19. Top up feature is not available under Flex SIP facility.
